EDUCATION

Baylor University

Waco, TX

Bachelor of Science in Applied Mathematics – Minor in Data Science

May 2026

- **GPA:** 3.68 / 4.00
- **Coursework:** Mathematical Statistics II, Regression Analysis, Ordinary Differential Equations, Linear Algebra, Probability and Statistics, Intro to Data Science, Intro to Programming II, Sports Analytics, Database Design, Cloud Computing, Numerical Analysis
- **Pi Beta Phi Fraternity for Women:** Intramural Chair – 2024-2025 Intramural Champion
- **Organizations:** Member of Data Science Club, Math Club, and Asian Ministry InterVarsity

EXPERIENCE

Seek Insights

Nashville, TN

Data Science Intern

June 2025 – August 2025

- Developed an interactive dashboard in Sigma using a 2.6 billion-row dataset of customer and product data, enabling 17,290 brands to analyze buyer personas and improve marketing and sales channel allocation strategies by 25%
- Built scalable YoY sales and customer tables in Snowflake using 5.6M customer and 935K product records, powering 49 interactive visuals that improved analyst efficiency by 40% and enabled revenue, brand, and demographic insights
- Created dynamic filters to segment customers across 16,597 cities into 5 personas based on loyalty, purchase behavior, timing, and demographic data, impacting dashboard visuals and enabling regional marketing strategies
- Presented technical customer and product data in a non-technical format to marketing and technology stakeholders, enabling improved audience targeting, campaign optimization, and data-driven decision-making

Favorite Daughter

Nashville, TN

Stock Associate

May 2026 – Present

- Processed and organized 200+ merchandise units per shift, overseeing inventory accuracy, ensuring timely floor replenishment, and supporting daily merchandise initiatives during peak sales periods
- Maintained organization and presentation of stock, storage, sales, and receiving locations, enabling efficient inventory management and compliance with company visual and operational standards
- Partnered with sales associates to fulfill product requests and coordinated 100+ daily merchandise movements between the stockroom and sales floor, contributing to a seamless customer experience and supporting sales goals
- Received, unpacked, tagged, and stocked weekly shipments exceeding 200 units, cutting product retrieval time for sales associates and improving stockroom efficiency

Childcare Solutions

Nashville, TN

Childcare Provider

June 2021 – December 2024

- Implemented childcare plans for 10+ families each summer, demonstrating strong time management and attention to detail, and communicating directly with families for household logistics and childcare needs
- Provided attentive care for children ages 6 months - 12 years, including children with special needs, and ensured they were provided with educational and recreational entertainment activities that supported both development and routine
- Fostered trusted relationships with families by maintaining through open, consistent communication, strong interpersonal skills, reliability, and a genuine commitment to each child's well-being

SKILLS

- **Languages:** Python, R, SQL, Julia, LaTeX
- **Frameworks & Libraries:** Pandas, Matplotlib, NumPy, Tidyverse, ggplot2, readr, broom
- **Tools & Platforms:** RStudio, Snowflake, Sigma, PyCharm, Word, Excel, Overleaf, Google Workspace, Linear
- **Concepts & Architectures:** Data Engineering, Data Visualization, Cloud, Probability Distributions, Linear & Logistic Regression, Discrete and Continuous Mathematics, Databases
- **Certifications:** Claude 101, Introduction to Claude Cowork

PROJECTS

IMDb Data Analysis Project in R

May 2023

- Analyzed an IMDb dataset with 5,273 movies and 27 features by filtering for key variables and retaining outliers to identify potential correlations and trends in audience movie preferences
- Created 6 visualizations utilizing R to explore distributions in audience ratings over time, runtime, box office performance, and rating systems, and presented findings through a structured PowerPoint
